SUPPLEMENT TO  
REPORT NO.

1. Plant area: 1,600x2,600 feet.
2. Traffic facilities: The plant had spur tracks, but there were no track ramifications in the plant area. There was an access road from the highway to the plant.
3. Plant installations (the following enumerations correspond to the numbers of the sketch):
  1. Administration building, three-story stone building, 65x100x40 feet.
  2. Guardhouse.
  3. Mail and spring department. Two-story steel structure, about 500x130x20 feet.
  4. Motorcycle department, two-story steel structure, about 330x160x20 feet.
  5. Rolling mill, two-story steel structure, 650x160x20 feet.
  6. Wire-drawing shop, two-story steel structure, 500x160x26 feet.
  7. Annealing department, two-story steel structure, 500x160x26 feet.
  8. Depot, one-story wooden structure, 160x30x26 feet.
  9. Hardening shop, two-story stone building, about 50x150x26 feet.
  10. Bolt and rivet department, two-story steel structure, about 330x160x26 feet.

25X1A

CENTRAL INTELLIGENCE AGENCY

- 2 -

11. Sheet metal band department, two-story steel structure, about 650x160x26 feet.
  4. Work force and working time: About three thousand workmen were employed in October 1946. Work was done in three 8-hour shifts.
  5. Power and raw materials: Power was supplied from GORKI (56°20'N/44°00'E). Iron and steel came from OVERDLOVEK (allegedly smelted scrap stocks).
  5. Production:
    - Motorcycles
    - Steel and spring wires
    - Nickel wire for heating implements
    - Bolts
- 25X1A Nails, springs, and spring washers.

Comment:

This report confirms a previous report, with which the annexed sketch is also in agreement.
